(a)
Arm A: encoder sees target genes
NB minus Poisson calibration error
0
−0.1
−0.2
−0.3
slope −0.021
95% interval [−0.072, 0.016]
0
0.5
validation variance deficit (log2 units)
(b)
Arm B: target genes held out
NB minus Poisson calibration error
0
−0.1
−0.2
−0.3
slope −0.069
95% interval [−0.132, −0.012]
0
0.5
validation variance deficit (log2 units)
Shared per-gene
Per-cell-type
Per-cell
(c)
scVI dispersion modes
NB win fraction vs Poisson (%)
